

ClimateLaunchpad 2026 – National & Regional Lead Report

CleantechHUB · Colombia, Peru and Central America (Costa Rica, Guatemala, El Salvador) · Americas Regional Final host

Inspira. Actúa. Transforma. · We believe in people who believe in their ideas.

Working draft compiled 13 Oct 2026 from Gmail, Drive and tracking sheets; status updated 15 Oct 2026 (COT) for pitch videos, Nexus one-pagers, data pipeline and certificates. Every figure cites its source [S#]; items marked PENDING still need evidence or confirmation.

Format source: ClimateLaunchpad National Lead Report (COL, PER, CA) 2025 template [S3] – sections 1–7 and declaration kept; contract-required sections 8–10 added.

30 Nov 2026	Due: Narrative Report incl. financial statement (both agreements) [S1, S2]

3. Results by country and stage

3.1 Colombia – National Final (20 Aug)

- Enrolment: 32 rows in the COL tracking tab (one duplicated: Green Textile Solutions) [S4]; Climate-KIC was told 25 teams were accepted to boot camp (1 Jun) [S12].
- National Final, 20 Aug 2026, Universidad Externado de Colombia: 29 startups scheduled in the pitch run sheet across 4 thematic rooms (Air & Environment, Clean Industry & Energy, Food & Agriculture, Water) [S5]. Juror logistics email: "26 startups"; certificates annex lists 26; 18 Sep reflection: 27 pitched [S13, S14]. Finalists audit (13 Oct): the room email lists 28 names in 6 rooms (top 1 per room + 2 wildcards = 8 finalists) and 27 startups appear in both the room email and the run sheet; Reporti (room email only), SOLESTRUCTURAS and Uniqua (run sheet only) are in one source each, and attendance on 20 Aug is not marked for all [S21]. Final count to confirm: PENDING.
- Final round (8 startups, 6 jurors – Lina Ospina, Diana María Quimbay, Camila Hernández, Santiago Quiñones, Felipe González, Luis Miguel Mateus) [S6]: 1 CurubaTech, 2 bio.analytics, 3 Terra IO, 4 communitylab, 5 HoneyB, 6 Cacelio, 7 ArtexLab, 8 Green Textile Solutions. Note: the "Jury Member 4" column is 0 for all, which lowers the averages. The ranking above is the recorded award order; the scorecard averages (Moderator View) put Terra IO 8th (24.7) and communitylab and Cacelio level at 27.4, so the award order and scorecard disagree for Terra IO – to reconcile: PENDING [S21].
- Regional: Terra IO (Room 1), bio.analytics (Room 2), CurubaTech (Room 3) in the semi-final; Terra IO reached the Regional Final [S9].
- CurubaTech travels to Singapore as the Colombia delegate; it is not one of the 8 pitching Global Grand Final finalists [S10, S17].

3.2 Peru – National Final

- Cohort: 16 startups in the PE tab (Lima, Cusco, Huánuco, Trujillo); 14 completed boot camp day 3; 11 completed mentoring; 14 mentors assigned [S4]. Contract target: up to 10 boot camp teams (exception up to 15 agreed 2 Jun) – the sheet lists 16: confirm [S2, S12].
- National Final: date, venue and jury PENDING. Ranked top 3 (Drive regional folder PE): 1 YakuSmart, 2 VIGÍA (ex MUCHIK), 3 PezConfiable [S4].
- YakuSmart reached the Regional Final and placed top 2 of the Americas → Global Grand Final finalist, 14 Oct [S9, S10]. Order (1st/2nd) between YakuSmart and Requecho: PENDING.
- Partner institution: Universidad del Pacífico contacts attended pitch preparation (ja.ueyonaharam@up.edu.pe) [S16]. Formal role: PENDING.

3.3 Central America – Mini-final (25 Aug)

- Cohort: 46 startups across tabs CR 13, GT 13, SV 20 [S4] (Climate-KIC was told 40 CA teams on 1 Jun [S12]).
- Mini-final: Tuesday 25 Aug 2026, 18:00–21:05 COT (17:00 local), Zoom hosted by Facultad de Ciencias Económicas y Empresariales, Universidad Rafael Landívar (URL); organised by Angélica Díaz with Estefanía and Regina as hosts [S8, S17].
- 9 startups pitched (scorecard Moderator View) [S7]: Piña & Kakaw (GT) 26.0 · Q-Mind (SV) 21.75 · Ecomuna (CR) 21.25 · Agrismart (SV) 19.25 · Ecolandia (SV) 19.0 · Fazzty (CR) 18.75 · Crysalia Studio (GT) 17.75 · GMOVES (GT) 17.25 · Finca Ganadera Águilas Verdes (CR) 15.75 (average of 6 jurors, max 30).
- Winners: 1 Piña & Kakaw, 2 Q-Mind, 3 Ecomuna – consistent in scorecard, transcript announcement and Drive regional folder CA [S7, S8].
- Jury (6): Santiago Cruz, Felipe Hernández, Diego Martínez de Velasco, Héctor Vinicio España González, Federico Espinosa (Veritas, CR), Andrés Ortega [S7]. Guest speaker: Blanca (URL lecturer, CLP 2024 Guatemala cohort) [S8].
- Partners: Universidad Rafael Landívar (GT; Zoom host, finals contact mralfaro@url.edu.gt), Universidad Veritas (CR), UTEC (SV – douglas.cabezas@utec.edu.sv) [S16, S17]. Formal partner agreements: PENDING.
- Transcript states the 1st place wins a trip to Singapore, but must place top 2 at the Regional to pitch [S8]. Piña & Kakaw reached the Regional semi-final; travel status: PENDING.

3.4 Americas Regional Final (3–4 Sep) – hosted by CleantechHUB

- Semi-final 3 Sep: 24 teams (top 3 × 8 countries), 4 rooms of 6; top 1 per room + 2 wildcards to the final [S9].
- Final 4 Sep, online (pre-recorded 5-min pitch + 5-min Q&A; StreamYard → YouTube live youtube.com/live/VW4tfzF51KU) [S9, S15]. Finalists: Ecolure (EC), Terra IO (CO), YakuSmart (PE), Funguspack by Bioquator (EC), Requecho (AR), Téscere Biotextiles (MX).
- Judges: Eddie Ajalcriña (redesignlab), Flora Drozak, Sebastián Bustamante (Climate-KIC), Johana Figueroa. Programme: host Gideon Blaauw; Juan Sebastián Garrido (#OneFly, CLP 2025 winner); María José Arjona; trainer spotlight Mónica Ávila Forero; rules Andrés Ortega (Team CEE+); guest speaker Catalina Valenzuela [S9].
- Result: YakuSmart (PE) and Requecho (AR) advanced to the Global Grand Final [S10]. Prizes at the Global Final: €10k / €5k / €3k [S9].
- CTH hub representation in the semi-final: 9 of 24 teams (COL 3, PE 3, CA 3) [S9, S4].

3.5 Global Grand Final (14 Oct, Singapore)

- 14 Oct 2026, Climate Innovation Summit Singapore (Better Earth Ventures), live from 16:00 SGT (03:00 COT) – youtube.com/live/gCO9leZtaIQ [S10, S15].
- 8 finalists: Biospark (Nigeria), ReSurfify (South Africa), YakuSmart (Peru), Requecho (Argentina), Neusla (Singapore), SATY (Vietnam), CarboSlag (Germany), Polium Scientific (Turkey) [S10].

- Event held 14 Oct 2026. Outcome: PENDING (not yet confirmed in our sources).

4. Project Highlights

- A Peruvian startup from the CleantechHUB cohort, YakuSmart, is one of the two Americas teams pitching at the Global Grand Final in Singapore [S10].
- CleantechHUB hosted the full Americas Regional Final for 8 countries, live on YouTube from our own channel [S1, S15].
- Our three hubs supplied 9 of the 24 Regional semi-finalists, and Colombia placed Terra IO in the Regional Final [S9].
- Central America ran a joint online Mini-final, with 9 startups from three countries and a 6-person jury [S7, S8].
- A broad volunteer network: 18 jurors listed for the COL final, 6 in CA and 4 Regional judges, plus mentors across all hubs (see section 8) [S4, S5, S7, S9].
- A public showcase for the cohort: 19 individual pitch videos are live on our YouTube channel @cleantechhub273, and 51 CLP26 startups have a Nexus one-pager with their pitch-deck slides (nexus.cleantechhub.net) [S18, S19].

5. Project Learnings

- Cohort size vs. format: Climate-KIC noted that 25 COL and 40 CA teams exceed the 8–12 team format; Peru exceeded the contractual 10 (exception to 15) [S12]. Agree on caps before recruitment.
- Pitch compliance matters: Colombia's national winner lost about ten points at the Regional for not meeting presentation requirements and fell out of the top 2 (17 Sep reflection) [S13]. Add a format/time-limit check to the pitch-prep sessions.
- Jury feedback themes (CA scorecards): protect IP, strengthen cost structure and distribution, quantify climate impact, keep to time [S7].
- Data discipline: participant counts differ between sources (COL 26/27/29), and the El Salvador tab has no boot camp attendance recorded [S4, S5, S13]. Building the Nexus one-pagers also showed wiki entries that disagree with the startup's own deck for 6 startups [S20]. Keep one participant master list.
- Recognition: certificates are still missing for all but one COL startup participant, for the Regional judges and for most mentors. Moodle course completion is tracked separately and does not count as a certificate [S14].
- Publishing limits: YouTube caps daily uploads, so 24 pitch videos took several days to publish. Plan uploads ahead of the deadline [S18].

6. Photographs, media coverage & video inventory

Individual pitch videos: 19 of 24 are public on the CleantechHUB YouTube channel @cleantechhub273 (all links checked 15 Oct 2026); the remaining 5 (PezConfiabile, Q-Mind, Funguspack, Requecho, FSNR) are scheduled for 16 Oct after the YouTube daily upload limit – PENDING. 10. Gaps (PENDING)

- Peru National Final: date, venue, jury, scorecard, prizes and Peru application count.
- Colombia: confirm the number of National Final pitchers (26 / 27 / 29 across sources).
- Regional Final: the order of YakuSmart vs Requecho (1st/2nd); thank-you notes/certificates for Regional and semi-final judges.
- Global Grand Final (14 Oct, already held) outcome; CurubaTech delegate role and Piña & Kakaw travel status.
- Colombia finalists: reconcile the award order with the scorecard averages for Terra IO; confirm Reporti, SOLESTRUCTURAS and Uniqua (one source each) and 20 Aug attendance [S21].
- Certificates (tracked as three separate states – Emitted, Generated, Downloaded): only 1 COL startup participant has a verified certificate (Planta Comunitaria WPC, Moodle customcert code f9baeRJCuJ: Emitted Yes, Generated Yes, Downloaded Unknown); the 4 Regional Final PNGs are Emitted and Generated, Downloaded Unknown. YakuSmart/Requecho have no Regional certificate because they advanced to the Global Final (Climate-KIC shared only the 4 non-advancing finalists, 7 Oct). 33 startup-participant Moodle accounts have completed the CC2026 course, but course completion is not a certificate state: their

Emitted/Generated/Downloaded stay Unknown until the Moodle customcert issued-certificates report and download log are exported [S14].

- Contracts: no 2026 national delivery agreement found for COL or CA; Peru cohort (16) is above the agreed exception (15).
- Reporting: Narrative Report + financial statement due 30 Nov 2026 (both agreements); summary report + media assets for the Regional Final; website funding acknowledgement.
- Media: 5 individual pitch videos (PezConfiabile, Q-Mind, Funguspack, Requecho, FSNR) are scheduled for YouTube on 16 Oct; Ettorett has no pitch video on file; CA Mini-final recording is only in Drive; LinkedIn pack and sizzle reel are drafts ("NO POST") [S18].
- Nexus: the startup portfolio is live (nexus.cleantechhub.net/p/startup-portfolio; 71 startup cards per the 14 Oct deploy, the card count was not re-counted on the live page); 4 El Salvador startups without a deck (AgriVoltaic Dragón fruit, DrainAlert, Nutri Fruits, Ecolandia) have draft text pages pending review in PR #47, not yet live [S19].
- Wiki & Odoo: draft BookStack wiki pages and Odoo records are prepared for all startups (32 batches merged in the repo) but are not yet published to the live wiki or Odoo [S19, S20].
- Founders: a web-sourced founder list exists (78 people for 63 startups; confidence 27 high, 22 medium, 24 low, 5 not found); LinkedIn verification starts 16 Oct at about 15 per day [S20].
- Taxonomy: open data flags (wiki vs deck mismatch) for CLIMATIK, HoneyB, Construyendo Redes de Paz, Ecomuna, Plastic Free Planet and ECO-BLOQUE (deck of "Proyecto emprendedor con impacto ambiental"); no taxonomy yet for HardTech, Kallpa Greenz Leaders and SEKPOS [S20].
- Mentors: El Salvador mentor list; mentor certificates (only 1 issued).
- Declaration & next-year participation: signature and decision PENDING.
